

(220 ILCS 5/13-403)

(This Section is scheduled to be repealed July 1, 2005.)

Sec. 13-403. Interexchange service authority, approval. The Commission shall approve an application for a Certificate of Interexchange Service Authority only upon a showing by the applicant, and a finding by the Commission, after notice and hearing, that the applicant possesses sufficient technical, financial and managerial resources and abilities to provide interexchange telecommunications service. The removal from this Section of the dialing restrictions by this amendatory Act of 1992 does not create any legislative presumption for or against intra-Market Service Area presubscription or changes in intra-Market Service Area dialing arrangements related to the implementation of that presubscription, but simply vests jurisdiction in the Illinois Commerce Commission to consider after notice and hearing the issue of presubscription in accordance with the policy goals outlined in Section 13-103.

The Commission shall have authority to alter the boundaries of Market Service Areas when such alteration is consistent with the public interest and the purposes and policies of this Article. A determination by the Commission with respect to Market Service Area boundaries shall not modify or affect the rights or obligations of any telecommunications carrier with respect to any consent decree or agreement with the United States Department of Justice, including, but not limited to, the Modification of Final Judgment in United States v. Western Electric Co., 552 F. Supp. 131 (D.D.C. 1982), as modified from time to time.

(This Section is scheduled to be repealed July 1, 2005.)

Sec. 13-404. Any telecommunications carrier offering or providing the resale of either local exchange or interexchange telecommunications service must first obtain a Certificate of Service Authority. The Commission shall approve an application for a Certificate for the resale of local exchange or interexchange telecommunications service upon a showing by the applicant, and a finding by the Commission, after notice and hearing, that the applicant possesses sufficient technical, financial and managerial resources and abilities to provide the resale of telecommunications service.

(This Section is scheduled to be repealed on July 1, 2005.)

Sec. 13-405.1. Interexchange services; incidental local service. Whether or not a telecommunications carrier is certified to offer or provide local exchange telecommunications service, nothing in Section 13-405 shall be construed to require the withdrawal or prevent the offering of interexchange services merely because incidental use of such service by the customer for local exchange telecommunications service is possible.

(220 ILCS 5/13-406)

(This Section is scheduled to be repealed July 1, 2005.)

Sec. 13-406. No telecommunications carrier offering or providing noncompetitive telecommunications service pursuant to a valid Certificate of Service Authority or certificate of public convenience and necessity shall discontinue or abandon such service once initiated until and unless it shall demonstrate, and the Commission finds, after notice and hearing, that such discontinuance or abandonment will not deprive customers of any necessary or essential telecommunications service or access thereto and is not otherwise contrary to the public interest. No telecommunications carrier offering or providing competitive telecommunications service shall discontinue or abandon such service once initiated except upon 30 days notice to the Commission and affected customers. The Commission may, upon its own motion or upon complaint, investigate the proposed discontinuance or abandonment of a competitive telecommunications service and may, after notice and hearing, prohibit such proposed discontinuance or abandonment if the Commission finds that it would be contrary to the public interest.
